PRIMARY SCHOOL

## First Aid Policy

Last Reviewed: November 2024

Next Review Due: October 2025

Reviewed Annually

## Introduction

The Governing Body and Head of School at Kingfisher Primary School accept their responsibility under the Health and Safety (First Aid) regulations 1981 and acknowledge the importance of providing First Aid for employees, children and visitors within the school.

The Governing Body are committed to the authority's procedure for reporting accidents and recognise their statutory duty to comply with the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995.

The provision of First Aid within the school will be in accordance with the Authority's guidance on First Aid in school.

## Aims of the policy

The aims of this policy are:

- To place a duty on the Governing Body to approve, implement and review the policy.
- To place individual duties on all employees.
- To report, record and where appropriate investigate all accidents.
- To record all occasions when first aid is administered to employees, pupils and visitors.
- To provide equipment and materials to carry out first aid treatment.
- To make arrangements to provide training to employees, maintain a record of that training and review annually.
- To establish a procedure for managing accidents in school which require First Aid treatment.
- To provide information to employees on the arrangements for First Aid.
- To undertake a risk assessment of the first aid requirements of the school.

## Arrangements for First Aid

Materials, equipment and facilities.

The school will provide materials, equipment and facilities as set out in DfE 'Guidance on First Aid for schools'.

The locations of First Aid Kits in school are:

- Medical Room
- School Office
- Hall
- Kitchen
- All classrooms
- Carried by staff on lunch and play duties

A number of transportable First Aid kits are available for school trips etc. from the main office.

The contents of the kits will be checked on a regular basis by designated staff.

Medication for named individuals will be kept in the medical box in the classroom or in the office.

Appointed persons for First Aid are listed in the main office.

## Off-site activities

At least one first aid kit will be taken on all off-site activities, along with individual pupil's medication such as inhalers, EpiPen's etc., and emergency contact details. A person who has been trained in first aid will accompany all off site visits.

## Information on First Aid arrangements

The Head will inform all employees at the school of the following:

- The arrangements for recording and reporting accidents.
- The arrangements for First Aid.
- Those employees with qualifications in First Aid.
- The location of First Aid kits.

In addition, the Head will ensure that up to date lists are kept in the office, providing the following information:

- Names of employees with first aid qualifications.
- Location of first aid boxes.

All members of staff will be made aware of the school's first aid policy.

## Accident Reporting

The Governing Body will implement the Local Authority's procedures for reporting:

- all accidents to employees
- all incidents of violence and aggression.

The Governing body is aware of its statutory duty under RIDDOR in respect of reporting the following to the Health and Safety executive as it applies to employees.

- An accident that involves an employee being incapacitated from work for more than three consecutive days.
- An accident that requires admittance to hospital for in excess of 24 hours.
- Death of an employee.
- Major injury such as fracture, amputation, dislocation of shoulder, hip, knee or spine.

For non-employees and pupils an accident will only be reported under RIDDOR:

- Where it is related to work being carried out by an employee or contractor and the accident results in death or major injury, or;
- It is an accident in school which requires immediate emergency treatment at hospital

For each instance where the Head considers an accident to a visitor or pupil is reportable under RIDDOR the advice of the authority will be sought.

Where a pupil has an accident it will be reported to the Local Authority.

All accidents to non-employees e.g. visitors, which result in injury, will be reported to the authority.

## Pupil accidents involving the head

The Governing body recognise that accidents involving the pupil's head can be problematic because the injury may not be evident and the effects only become noticeable after a period of time.

- Where emergency treatment is not required, a 'First Aid' letter will be sent home to the child's parents or guardians.
- The accident book is kept in the school office. Courtesy calls to parents regarding bumps to the head are made.

## Transport to hospital or home

- The Head will determine what is a reasonable and sensible action to take in each case.
- Where the injury is an emergency, an ambulance will be called following which the parent will be called.
- Where hospital treatment is required but it is not an emergency, then the Head will arrange to contact the parents for them to take over responsibility for the child.
- If the parents cannot be contacted then the Head may decide to transport the pupil to hospital escorted by staff.

Where the Head makes arrangements for transporting a child then the following points will be observed:

- Only staff cars insured to cover such transportation would be used.
- No individual member of staff should be alone with a pupil in a vehicle.
- A second member of staff will be present to provide supervision for the injured pupil if the parent is not available
